Comments:

1. In case of xStation platform, the value of calculated Margin for hedge positions will not be collected.
2. Nominal Portfolio Value, as specified in the GTC, applies to all opened positions held by the Client in all of his xStation and Meta Trader Trading Accounts, except positions in Stock CFDs,
3. Nominal values of individual positions, which constitute the Client's portfolio, are converted to Euro based on XTB rates at regular intervals throughout the life-time of each position.
4. Client may choose the Nominal Portfolio Value group as specified in the above table. If opening of new positions results in exceeding of the Maximum Nominal Portfolio Value, such positions will not be opened.
5. Nominal value for hedged positions is the nominal value of buy or sell position, whichever is greater.
6. If there is a justified suspicion that Accounts are managed by one person or the group of persons connected with each other, they will be assigned to the same Nominal Portfolio Value group

7. In case of xStation platform, the change of the Nominal Portfolio Value group, which cause a change of Margin requirements, will affect only the newly opened positions and Margin collected
8. If the Equity to Margin percentage ratio (the so-called Margin Level) is below 100% and there is at least one Open Position in the Client's Account on the xStation Trading Platform conclusion only of a Reverse Transaction
9. Margins collected at opening transactions referred to Stock CFDs:

20%
